- All classes available for continuing education credits. See Lisa York on how to sign up through CE.
- Internship and cooperative classes must be approved by instructor to sign up for. Some business have set positions available. Students may also secure employment themselves and verify the employer to fulfill course requirements. Paid position.
- Internship class will be focused on working in gardens and greenhouse for this semester.
- Interns for the AGMG-2286 course will enjoy working on the college farm and are open to non-ag majors per request and approval.
