Re-enabling Java for Blackboard

1. Under Tools, select Internet Options.
2. In Browsing history, select Delete. In the dialog box, click Delete all... In the Delete Browsing History dialog box, select the checkbox for Also delete files and settings stored by add-ons and click Yes.
3. Close the Internet Options control panel applet and close your web browser.
4. Go to the Windows Control Panel and double-click the Java Control Panel.

5. In the Java Control Panel, click on the Security tab.
6. On the Security tab, click the Certificates... button.

7. In the Certificates windows, there should be one item for Blackboard. Click the Remove button to remove the security certificate.
8. Click OK when prompted to confirm removal.

9. Close out the Java Control Panel.
10. Open your web browser and login to Blackboard. When prompted about running Java, click the checkbox for Always trust content from this publisher and click Run.

The My Computer icon should now display and work.
