Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities and the aggregate discretely presented component unit of Northeast Texas Community College (the college) and Northeast Texas Community College Foundation, Inc. (the Foundation), as of and for the year ended August 31, 2024 and 2023, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Northeast Texas Community College and Northeast Texas Community College Foundation, as of August 31, 2024 and 2023, and the changes in financial position, and cash flows, thereof for the years then ended in accordance with accounting principles general accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the College and Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in according with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* that will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of College's share of net pension liability, schedule of College's contributions for pensions, schedule of College's proportionate share of Net OPEB liability, and schedule of College's contributions for OPEB be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the College's and the Foundation's basic financial statements. The supplemental schedules required by Texas Higher Education Coordinating Board section are presented for purposes of additional analysis as required by the Coordinating Board and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and is not a required part of the basic financial statements. The schedule of expenditures of state awards is presented for purposes of additional analysis as required by *State of Texas Single Audit Circular* and is not a required part of the basic financial statements.

The supplemental schedules required by Texas Higher Education Coordinating Board section, schedule of expenditures of federal awards, and the schedule of expenditures of state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion the schedules referenced to in this paragraph are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2024 on our consideration of Northeast Texas Community College and Northeast Texas Community College Foundation Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* in considering Northeast Texas Community College and Northeast Texas Community College Foundation Inc.'s internal control over financial reporting and compliance.

Management's Discussion and Analysis
August 31, 2024

This section of Northeast Texas Community College's Annual Financial Report presents management's discussion and analysis of the College's financial activity during fiscal years ending 2022, 2023, and 2024. Since this management's discussion and analysis is designed to focus on current activities, resulting change, decisions or conditions of facts, please read it in conjunction with the College's basic financial statements and the footnotes. The College endeavors to present an objective and easily readable analysis of the overall financial activities to students and the public. Responsibility for the completeness and fairness of this information rests with the College.

Using This Annual Report

Management Discussion and Analysis (MD&A) compares the current year to the previous year and the previous year to the preceding year based on information presented in the financial statements.

College Foundation Reported as a Discrete Component Unit

The College is considered to be a special purpose primary government according to the definition of GASB 14, and therefore, the College is the prime focus for this financial presentation. However, the Northeast Texas Community College Foundation is organized for the exclusive support of the Northeast Texas Community College. For this reason, the College's Foundation is included in this report, albeit as a discrete component. Any management discussion relating to the College's Foundation is considered for its significance in articulating the College's Annual Financial Report.

Statement of Net Position (Balance Sheet)

The Statement of Net Position is a point of time financial statement. The purpose of the Statement of Net Position is to present to the readers a fiscal snapshot of the College for the current fiscal year ended. The Statement of Net Position combines and consolidates current financial resources (short-term spendable resources) with capital assets. It presents end-of-year data concerning:

- Assets (current, capital and other non-current), deferred outflows,
- Liabilities (current and non-current), deferred inflows, and
- Net Position.

Statement of Net Position

TOTAL ASSETS	59 537 085	59 119 121	56 557 854
Deferred outflows of resources	6 024 363	8 613 682	5 938 498
LIABILITIES			
Current	5 365 239	5 882 758	6 295 390
Noncurrent	51 313 231	54 017 384	55 555 956
TOTAL LIABILITIES	56 678 470	59 900 142	61 851 346
Deferred inflows of resources	8 075 283	8 566 913	4 895 471
TOTAL NET POSITION	\$ 807 695	\$ (734 252)	\$ (4 250 465)

The definition of current assets means the ability of the College to pay obligations out of the proceeds of current operations. The total assets include the College's capital assets (net of depreciation). The capital assets include buildings, facilities and other improvements, furniture, machinery, vehicles and other equipment, and telecommunications and peripheral equipment. In determining the net capital assets, the College went into considerable detail in identifying the historical costs and the net accumulated depreciation of each asset category based on its useful life and residual values. In following the above guidelines, the College can provide more useful information about the long-term effects of short-term decisions, primarily by including the cost of consuming the capital assets used in providing services.

Net Position is divided into three major categories:

- The first asset category, invested in capital assets and reserve for debt service, provides the College's equity in property, plant, and equipment.
- The next asset category is restricted net assets, which is divided into two categories, permanent and temporary. Restricted permanent is maintained only in the College's Foundation, is non-expendable and used only for investment purposes. Temporary restricted assets are maintained both by the College and the Foundation and are used for purposes determined by donors and/or external entities.

- The third asset category is the unrestricted assets and is available to both the College and the Foundation for any lawful purpose.

As of August 31, 2024, 2023 and 2022, the College's net positions were \$807,695, \$(734,252), and \$(4,250,465), respectively. From the data presented, readers of the Statement of Net Position are able to determine the Net Assets available to continue the operations of the institution. They are also able to determine how much the College owes vendors, investors, and lending institutions.

Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position focus on both the gross costs and the net costs of College activities that are supported mainly by state appropriation, property taxes, tuition and fees, and other revenues. The outcome of the total activities presented in the Statement of Revenues, Expenses, and Changes in Net Position influenced the above Statement of Net Position. The purpose of the statement is to present the revenues earned by the institution, both operating and non-operating, and the expenses incurred by the institution, operating and non-operating, and any other revenues, expenses, gains and losses earned or incurred by the College.

Generally speaking, operating revenues are received for providing goods and services to the various customers and constituencies of the College. Operating expenses are those expenses paid to acquire or produce the goods and services provided in return for the operating revenues, and to carry out the mission of the College. Non-operating revenues are revenues received for which goods and services are not provided. For example, Ad Valorem taxes for maintenance and operations of the College and for payment of general obligation bonds are non-operating revenues because there is no direct correlation between these revenues and the goods and services that the College provides.

In comparing the fiscal periods ended August 31, 2024 and 2023:

- Net Tuition and fee revenues decreased \$289,658 or 7%. This was a result of an increase in allowances and discounts.
- Net Auxiliary Enterprises decreased \$291,113 or 13% mainly as a result of decreased housing occupancy.
- Federal Grants and Contracts decreased \$770,217 or 21% primarily as a result of decreases in federal funding.
- State Grants and Contracts increased \$332,888 or 58% largely as a result of increased awards through the Texas Workforce Commission specifically for workforce.
- State Allocations increased \$2,499,819 or 38% primarily as a result of an increase in the state funding model changes as a result of House Bill 8.
- Federal Revenue Non-Operating decreased \$789,737 or 14% as a result of decrease in CARES money.

In comparing the fiscal periods ended August 31, 2023 and 2022:

- Net Tuition and fee revenues increased \$161,936 or 4%. This was a result of increased enrollment.
 - Net Auxiliary Enterprises increased \$224,949 or 11% mainly as a result of increased housing occupancy and a increase in Whatley program revenues.
 - Federal Grants and Contracts decreased \$12,939 or 0.35% primarily as a result of decreases in HEERF federal funding.
 - State Grants and Contracts increased \$43,588 or 10% largely as a result of decreased awards through the Texas Workforce Commission and Nursing Shortage Reduction Program (NSRP).
 - State Allocations increased \$138,756 or 2% as a result of need-based supplement increase in State appropriations.
 - Federal Revenue Non-Operating decreased \$2,938,372 or 34% as a result of HEERF federal funding.
- Additionally, the same methodology is being presented for the operating and non-operating expenses to illustrate the use of the College's resources:

In comparing the fiscal periods ended August 31, 2024 and 2023:

- Instruction increased \$1,429,137 or 13% primarily due to increased instructional salaries.
- Academic Support decreased \$159,003 or 11% as a result of lower contracted service expenditures.
- Institutional Support increased \$251,211 or 5% as a result of an increase in salary and related benefits.
- Total other non-operating increased \$191,907 or 80% due to gains on disposal of assets.

In comparing the fiscal periods ended August 31, 2023 and 2022:

- Instruction increased \$1,053,522 or 11% primarily due to increased instructional salaries.
- Academic Support increased \$282,415 or 24% as a result of higher contracted service expenditures.
- Institutional Support decreased \$949,570 or 16% as a result of a decrease expenditures through HEERF federal funds.
- Total other non-operating increased \$600 or 26% due to gains on disposal of assets.

Analysis of Net Position

Total Net Position of \$807,695 is comprised of the investment in capital assets net of related debt of \$14,890,648, restricted for debt service of \$213,717, and unrestricted net position of \$(14,296,670). The debt service reserve is set-aside in the event the pledged revenues in interest and sinking fund are not sufficient to pay the debt service payment in the future. The unrestricted net position is the inception-to-date net of current and non-current revenues and expenses.

Long Term Debt

The College has revenue bonds, general obligation bonds, and other notes payable for which contractual payments have been made in the fiscal periods ended August 31, 2024 and 2023.

See Note 9 - Bonds and Notes Payable of the financial statements for further information about long-term debt activity.

Capital Assets

In the fiscal period ended August 31, 2024, the College expended \$106,177 in Federal grant funds to purchase equipment for use in our workforce education program. The completion of the SIM Center was also recognized during this fiscal period at a cost of \$1,087,125.

See Note 7 - Capital Assets of the financial statements for further information about capital asset activity.

Standard & Poor's affirmed the College's Revenue Financing debt rating at BBB and rated the college's General Obligation Financing debt at AA. Management does not believe it has any debt limitations that may affect the financing of planned facilities or services.

Statement of Cash Flows

The final statement presented by the Northeast Texas Community College is the Statement of Cash Flows. The Statement of Cash Flows presents detailed information about the cash activity of the institution during the year. The statement is divided into five parts:

Part 1 deals with operating cash flows and shows the net cash used in the operating activities of the institution. The bulk of receipts from students and other customers, appropriations, grants and contracts, and other proceeds help the College cover its payments for payroll, scholarships, loans, and other cash payments.

Part 2 shows the cash flow from non-capital and related financing activities. Part of the ad-valorem local tax revenues pays for maintenance and operations of the College and the rest is for the settlement of general obligation bonds.

Part 3 reflects the cash flows from capital and related financing activities. It shows payments made on expenses and interest on capital related debt, purchase of capital assets, and payments on capital debt and leases.

Part 4 shows the cash flows from investing activities where proceeds from the sale and purchase of investments including investment earnings are reflected.

Part 5 reconciles the net cash used in the operating income or loss that is reflected on the Statement of Net Position under the line item "Cash and Cash Equivalents".

Financial Condition and Outlook

Net position increased in fiscal year 2024 by \$1,541,944 primarily due to an increase in state allocations in non-operating revenues of \$2,499,819. Given our current investment plan, we anticipate ongoing moderate increases in earnings of interest on our temporary investments. We anticipate modest increases in operating maintenance and operations tax revenues over the next two to three years. Due to recent changes to the current community college state funding model passed by the 88th Legislature, we anticipate substantial increases in outcomes-based funding over the next two years. We will continue to adjust ongoing operating spending to compensate for the projected changes in revenue. The College also anticipates increased enrollments going forward as we implement new workforce programs and short-term credentials for retraining and reskilling the area's regional workforce in response to the new performance-based funding model.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, students, and creditors with a general overview of the College's finances and to demonstrate the College's accountability for the funds it receives. NORTHEAST TEXAS COMMUNITY COLLEGE
AND NORTHEAST TEXAS COMMUNITY COLLEGE FOUNDATION
NOTES TO FINANCIAL STATEMENTS
August 31, 2024 and 2023

NOTE 1 - REPORTING ENTITY

Northeast Texas Community College (the College) was formed in January 1984, within a voter approved tax district encompassing Camp, Morris, and Titus Counties in Northeast Texas, in accordance with the laws of the State of Texas. A seven-member Board of Trustees elected at large from the three counties serves as the oversight unit. The College is considered to be a special purpose, primary government according to the definition in Governmental Accounting Standards Board (GASB) Statement 14. While the College receives funding from local, state, and federal sources, and must comply with the spending, reporting and record keeping requirements of these entities, it is not a component unit of any other governmental entity.

In defining the College's reporting entity for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in generally accepted accounting principles. The following is a brief summary of the potential component unit addressed in defining the College's reporting entity.

Northeast Texas Community College Foundation - The Foundation is organized for the exclusive support of Northeast Texas Community College. The Foundation is a thirty-two member board and the members of the College Board of Trustees are members of the Board of Directors of the Foundation.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Guidelines

The significant accounting policies followed by Northeast Texas Community College and Northeast Texas Community College Foundation in preparing these financial statements are in accordance with the *Texas Higher Education Coordinating Board's Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges*. The College applies all applicable GASB pronouncements. The College is reported as a special-purpose government engaged in business-type activities (BTA).

Tuition Discounting

Texas Public Education Grants (TPEG) - Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (TPEG), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code Sed. §56.033). When funds are awarded to students and used for tuition and fees, the amounts are recorded as revenue, and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Title IV, Higher Education Act (HEA) Program Funds - Certain Title IV HEA Program funds are received by the College to pass through to the student. These funds are initially received by the College and recorded as restricted revenue. When funds are awarded to students, and used for tuition and fees, the amounts are recorded as revenue and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Other Tuition Discounts - The College awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used for tuition and fees, the amounts are recorded as tuition and fee revenue and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Basis of Accounting

The financial statements of the College have been prepared on the accrual basis whereby all revenues are recorded when earned and all expenses are recorded when reduced to a legal or contractual obligation to pay.

Budgetary Data

Each community college in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The College's Board of Trustees adopts the budget, which is prepared on the accrual basis of accounting. A copy of the approved budget and subsequent amendments must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and Governor's Office of Budget and Planning by December 1.

Cash and Cash Equivalents

The College's cash and cash equivalents are considered to be cash on-hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Restricted Cash

The College's restricted cash consists of cash not available for operations, such as cash reserves for bond requirements.

NOTES TO FINANCIAL STATEMENTS - CONTINUED
August 31, 2024 and 2023

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Deferred Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expenses) until then. Governments are only permitted to report deferred outflows in circumstances specifically authorized by the GASB. A typical deferred outflow for community colleges is a deferred charge on refunding debt and/or charges relating pension benefits.

Investments

In accordance with GASB Statement No 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, investments are reported at fair value. Fair values are based on published market rates. Short-term investments have an original maturity of greater than one year at the time of purchase. Non-current investments include investments that are current but not available for operations.

Inventories

Inventories consisting of consumable office supplies, and bookstore stock. Inventories are stated a lower of cost or market using the first-in, first-out (FIFO) method and are charged to expense as consumed.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenues) until that time. Governments are only permitted to report deferred inflows in circumstances specifically authorized by the GASB. A typical deferred inflow for community colleges is pension or OPEB related.

Capital Assets

Capital assets are recorded at cost at the date of acquisition or fair value at the date of donation. For equipment, the District's capitalization policy includes all items with a unit cost of \$5,000 or more and estimated useful life in excess of one year. Renovations of \$50,000 to buildings, infrastructure and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are charged to operating expense in the year in which the expense is incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 20 years for land improvements, 15 years for library books, 10 years for furniture, machinery, vehicles and other equipment, and 5 years for telecommunications and peripheral equipment.

Other Post-Employment Benefits

The fiduciary net position of the Employees Retirement System of Texas (ERS) State Retiree Health Plan (SRHP) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other postemployment benefits; OPEB expense; and information about assets, liabilities and additions to/deductions from SRHP's net position. Benefit payments are recognized when due and are payable in accordance with the benefit terms.

Pensions

The College participates in the Teacher Retirement System of Texas (TRS) pension plan, a multiple-employer cost sharing defined benefit pension plan with a special funding situation. The fiduciary net position of TRS has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Unearned Revenues and Expenditure

Tuition and fees of \$1,073,116 and \$1,369,093 and federal, state, and local grants of \$545,645 and \$896,796, have been reported as unearned revenues at August 31, 2024 and 2023, respectively.

Estimates

The preparation of the financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Operating and Non-Operating Revenues and Expenses

The College distinguishes operating revenues and expenses from non-operating items. The College reports as a business type activity (BTA) and as a single, proprietary fund. Operating revenues and expenses generally result from providing services in connection with the College's principal ongoing operations. The principal operating revenues are tuition and related fees. The major non-operating revenues are state appropriations, Title IV federal revenue, and property tax collections. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. The operation of food service is not performed by the College.

Prior Period Adjustment and Reclassifications

Certain reclassifications have been made to the prior year to conform with the current year presentation.

NOTE 3 - AUTHORIZED INVESTMENTS

Northeast Texas Community College and Northeast Texas Community College Foundation are authorized to invest in obligations and instruments as defined in the Public Funds Investment Act (Sec. 2256.001 Texas Government Code). Such investments include: (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit, and (5) other instruments and obligations authorized by statute.

TOTAL MARKET VALUE	AAA	\$ 5 076 915	\$ 5 076 915	\$ -	\$ -

As of August 31, 2024, the Foundation had the following investments and maturities:

Investment Type	CREDIT RATING	MARKET VALUE	NO MATURITY	INVESTMENT MATURITIES (IN YEARS)		
				LESS THAN 1	1-2	2-3
Mutual Funds	N/A	\$ 5 646 178	\$ 5 646 178	\$ -	\$ -	\$ -
TOTAL MARKET VALUE		\$ 5 646 178	\$ 5 646 178	\$ -	\$ -	\$ -

Interest Rate Risk - In accordance with state law and Northeast Texas Community College policy, the College does not purchase any investments with maturities greater than 10 years.

Credit Risk - In accordance with state law and the College's investment policy, investments in mutual funds and investment pools must be rated at least AAA; commercial paper must be rated at least A-1 or P-1; and investments in obligations from other states, municipalities, counties, etc. must be rated at least A, as well.

Concentration of Credit Risk - The College does not place a limit on the amount that may be invested in any one issuer. More than 47% of the College's investments are in investment pools (62.0%) and certificates of deposit (38.0%).

Custodial Credit Risk - At August 31, 2024 and 2023, the College had money on deposit at two banks. The carrying amount of the College's and the Foundation's bank deposits was \$7,885,357 and \$7,862,281, and total bank balances equaled \$7,114,256 and \$8,337,383, respectively. Bank balances of \$715,334 are covered by federal depository insurance and \$7,635,357 was covered by collateral pledged in Northeast Texas Community College's name. The collateral was held in the safekeeping departments of banks which act as agents for the College.

Fair Value of Investments - Accounting standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets that the government can access at the measurement date, Level 2 inputs consist of inputs other than quoted prices that are observable for identical assets, and Level 3 inputs are unobservable inputs for the assets. All investments are valued using Level 1 inputs.

Distributions from endowment investments are required to be spent for the purposes for which the endowment was established. Scholarship distributions are made pursuant to the investment policy. The policy for distribution of investment income designates an annual spending rate of no more than 5% as applied to a 36 month moving average of market value less current year contributions as measured at August 31 of each year.

NOTE 5 - DERIVATIVES

The College had no derivatives at August 31, 2024 or 2023.

NOTE 6 - DEFERRED OUTFLOWS OF RESOURCES BOND REFUNDING

The College was required to reclassify refunded debt, the difference between the reacquisition price and the net carrying amount of the old debt, as a deferred outflow of resources or a deferred inflow of resources and recognize this as a component of interest expense in a systematic and rational manner over the remaining life of the old debt of the life on the new debt, whichever is shorter.

NOTE 10 - DEFINED BENEFIT PENSION PLAN

Plan Description - The College participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position - Detailed information about TRS's fiduciary net position is available in a separately-issued Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at: <http://www.trs.state.tx.us/about/documents/cafr.pdf#cafr>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided - TRS provides service and disability retirement, as well as death and survivor benefits, to eligible members (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity (except for employees who are grandfathered, where the three highest annual salaries are used). The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLA). Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Contributions - Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution, which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employers	8.25%	8.0%
Employer Contributions	\$ 604 919	
Member Contributions	\$ 932 127	
NECE On-behalf Contributions	\$ 297 727	

Contributors to the plan include members, employers, and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools, and state agencies including TRS. In each respective the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

The District's contributions to the TRS pension plan in 2024 were \$506,082, as reported in the Schedule of the District's Contributions in the Required Supplementary Information section of these financial statements. Estimated state of Texas on-behalf contributions for 2024 were \$297,727.

- As the non-employer contributing entity for public education and junior colleges, the state of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers.

Public junior colleges or junior college districts are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.
- In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.
- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions:

The total pension liability in the August 31, 2023 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2023
Actuarial Cost Method	Individual Entry Age Normal
Amortization Method	Fair Value
Actuarial Assumptions:	
Single Discount Rate	7.00%
Long-term Expected Investment Rate of Return	7.00%
Inflation	2.30%
Payroll Growth Rate	2.30%
Salary Increases Including Inflation	2.95% to 8.95% including inflation
Benefit Changes During the Year	None
Ad Hoc Post-Employment Benefit Changes	None

*Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."

NOTE 10 - DEFINED BENEFIT PENSION PLAN - CONTINUED

The actuarial methods and assumptions were selected by the TRS Board of Trustees based upon analysis and recommendations by the system's actuary. The Board of Trustees has sole authority to determine the actuarial assumptions used for the plan. The actuarial methods and assumptions were primarily based on a study of actual experience for the three-year period ending August 31, 2017 and were adopted in July 2018. There were no changes to the actuarial assumptions or other inputs that affected the measurement of the total pension liability since the prior measurement period. Assumptions, methods, and plan changes were updated from the prior year's report. The net pension liability increased significantly since the prior measurement date due to a change in the following actuarial assumptions:

- The total pension liability as of August 31, 2023 was developed using a roll-forward method from the August 31, 2022 valuation.
- Demographic assumptions including postretirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2023.
- Economic assumptions including rates of salary increase for individual participants was updated based on the same experience study.
- The discount rate decreased to 7.0 percent as of August 31, 2023.
- The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the net pension liability.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Discount Rate:

The discount rate used to measure the total pension liability was 7.00 percent. The single discount rate was based on the expected rate of return on pension plan investments of 7.00 percent and a municipal bond rate of 3.91 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments until the year 2069. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2069, and the municipal bond rate was applied to all benefit payments after that date. The long-term rate of return on pension plan investments is 7.25 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in TRS' target asset allocation as of August 31, 2023, are summarized below:

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2024, the College reported a liability of \$7,082,060 for its proportionate share of TRS's net pension liability. This liability reflects a reduction for State pension support provided to the College. The amount recognized by the College as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the College were as follows:

District's proportionate share of the collective net pension liability	\$ 7 083 990
State's proportionate share that is associated with the District	3 978 602
TOTAL	\$ 11 062 592

The net pension liability was measured as of August 31, 2023 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The College's proportion of the net pension liability was based on the College's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2022 through August 31, 2023.

At August 31, 2023, the College's proportion of the collective net pension liability was 0.0103%, which was an increase (decrease) of (0.0004) from its proportion measured as of August 31, 2022.

Changes Since the Prior Actuarial Valuation - There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2024, the College recognized pension expense of \$600,734 and revenue of \$600,734 for support provided by the State.

For the year ended August 31, 2023, the College recognized pension expense of \$333,121 and revenue of \$333,121 for support provided by the State.

At August 31, 2024, the College reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	DEFERRED OUTFLOWS OF RESOURCES	DEFERRED INFLOWS OF RESOURCES
Differences between expected and actual economic experience	\$ 252 407	\$ 85 780
Changes in actuarial assumptions	670 013	163 968

	604 919	-
TOTAL	\$ 3 862 123	\$ 1 672 246

The net amounts of the College's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

NOTE 11 - DEFINED CONTRIBUTION PENSION PLAN

Plan Description - The state has also established an optional retirement program for institutions of higher education. Participation in the Optional Retirement Program is in lieu of participation in the Teacher Retirement System. The optional retirement program provides for the purchase of annuity contracts and operates under the provisions of the Texas constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

NOTE 11 - DEFINED CONTRIBUTION PENSION PLAN - CONTINUED

Funding Policy - Contribution requirements are not actuarially determined but are established and amended by the Texas Legislature. The percentages of participant salaries currently contributed by the state and each participant are 3.3% and 6.0%, respectively. The College contributes 5.2% for employees who were participating in the optional retirement program prior to September 1, 1995 and 3.3% for all others. Benefits fully vest after one year plus one day of employment. Because these are individual annuity contracts, the state has no additional or unfunded liability for this program. Senate Bill (SB) 1812, 83rd Texas Legislature, Regular Session, effective September 1, 2013, limits the amount of the state's contribution to 50% of eligible employees in the reporting district.

The retirement expense of the state for the College, for both the defined benefit plan and the defined contribution plan, was \$280,063, \$273,917, and \$259,298 for the fiscal years ended August 31, 2024, 2023, and 2022, respectively. This amount represents the portion of expended appropriations made by the Texas Legislature on behalf of the College.

The total payroll for the College employees was \$12,920,364, \$11,919,982, and \$11,805,184 for fiscal years 2024, 2023, and 2022, respectively. The total payroll of employees covered by the TRS was \$10,459,975, \$9,613,833, and \$11,762,626 and the total payroll of employees covered by the Optional Retirement Program was \$1,952,983, \$2,306,149, and \$2,177,421 for fiscal years 2024, 2023, and 2022, respectively.

NOTE 12 - DEFERRED COMPENSATION PROGRAM

College employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Government Code 609.001. Both a 403(b) plan and a 457(b) plan are available. These plans are funded by employee contributions such that the System is not liable for the diminution in value or loss of all or part of the participating employees' deferred amounts or investment income due to market conditions or the failure, insolvency, or bankruptcy of a qualified vendor.

The total number of NTCC employees participating in these plans at August 31, 2024 and 2023 were 17 and 15, respectively. During fiscal years ended August 31, 2024 and 2023, NTCC employee contributions amounting to 119,706 and \$133,315, respectively, were invested in the plans.

NOTE 13 - COMPENSABLE ABSENCES

Full-time College employees earn vacation of 5 to 15 days per year based on years of service and sick leave benefits of 8 hours per month. Employees are required to take all of their vacation by the anniversary date of their employment. The College has accrued \$163,253 and \$140,006 for August 31, 2024 and 2023, respectively, in the financial statements for vacation to be carried over to the next fiscal year. Administration believes that all of the accrued vacation will be taken or paid out in the next fiscal year. Sick leave can be accumulated up to 480 hours but cannot be redeemed in pay. Accordingly, no accrual for sick leave has been made.

NOTE 14 - HEALTH CARE AND LIFE INSURANCE BENEFITS

Certain health care and life insurance benefits for active employees are provided through an insurance company whose premiums are based on benefits paid during the previous year. The State recognizes the cost of providing these benefits by expending the annual insurance premiums. The State's contribution per insured was \$312.41 and \$312.41 for the years ended August 31, 2024 and 2023, respectively, and totaled \$882,745 for 2024 and \$734,601 for 2023. The cost of providing those benefits for 79 retirees in the year ended fiscal year 2024 was \$401,945 (retirees benefits for 76 retirees cost \$396,383 in fiscal year 2023). For 221 active employees, the cost of providing benefits was \$1,350,253 for the fiscal year ended 2024 (active employee benefits for 206 employees cost \$1,309,428 for the fiscal year 2023).

NOTE 15 - OTHER POST-EMPLOYMENT BENEFITS (OPEB)

(SB 1812, 83rd Texas Legislature, Regular Session, effective September 1, 2013, limits the amount of the State's contribution to the 50 percent of eligible employees in the reporting district.)

A. Plan Description

The College participates in a cost-sharing, multiple-employer defined benefit, other postemployment benefit (OPEB) plan with a special funding situation. The Texas Employees Group Benefits Program (GBP) is administered by the Employees Retirement System of Texas (ERS). The GBP provides certain postemployment health care, life and dental insurance benefits to retired employees of participating universities, community colleges, and State agencies in accordance with Chapter 1551, Texas Insurance Code. Almost all employees may become eligible for those benefits if they reach normal retirement age while working for the State and retire with at least 10 years of service to eligible entities. Surviving spouses and dependents of these retirees are also covered. Benefit and contribution provisions of the GBP are authorized by State law and may be amended by the Texas Legislature.

B. OPEB Plan Fiduciary Net Positions

Detailed information about the GBP's fiduciary net position is available in the separately issued ERS Annual Financial Report (AFR) that includes financial statements, notes to the financial statements and required supplementary information. That report may be obtained on the Internet at <https://ers.texas.gov/AboutERS/Reports-and-Studies/Reports-on-Overall-ERS-Operations-and-Financial-Management>; or by writing to ERS at: 200 East 18th Street, Austin, TX 78701; or by calling (877) 275-4377.

C. Benefits Provided

Retiree health benefits offered through the GBP are available to most State of Texas retirees and their eligible dependents. Participants need at least ten years of service credit with an agency or institution that participates in the GBP to be eligible for GBP retiree insurance. The GBP provides self-funded group health (medical and prescription drug) benefits for eligible retirees under HealthSelect. The GBP also provides a fully insured medical benefit option for Medicare-primary participants under the HealthSelect Medicare Advantage Plan and life insurance benefits to eligible retirees via a minimum premium funding arrangement. The authority under which the obligations of the plan members and employers are established and/or may be amended is Chapter 1551, Texas Insurance Code.

D. Contributions

Section 1551.055 of Chapter 1551, Texas Insurance Code, provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS Board of Trustees. The employer and member contribution rates are determined annually by the ERS Board of Trustees based on the recommendations of ERS staff and its consulting actuary. The contribution rates are determined based on (i) the benefit and administrative costs expected to be incurred, (ii) the funds appropriated and (iii) the funding policy established by the Texas Legislature in connection with benefits provided through the GBP. The Trustees revise benefits when necessary to match expected benefit and administrative costs with the revenue expected to be generated by the appropriated funds. There are no long-term contracts for contributions to the plan.

The following table summarizes the maximum monthly employer contribution toward eligible retirees' health and basic life premium. Retirees pay any premium over and above the employer contribution. The employer does not contribute toward dental or optional life insurance. Surviving spouses and their dependents do not receive any employer contribution. As the non-employer contributing entity (NECE), the State of Texas pays part of the premiums for the junior and community colleges.

E. Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of August 31, 2023 using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Methods and Assumptions:

Valuation Date	August 31, 2023
Methods and Assumptions:	
Actuarial Cost Method	Entry Age
Amortization Method	Level Percentage of Payroll, Open
Last Experience Study	<i>State Agency Members: 5-year period from September 1, 2014 to August 31, 2019</i> <i>Higher Education Members: 7-year period from September 1, 2010 to August 31, 2017</i>
Actuarial Assumptions:	
Discount Rate	3.81%
Projected Annual Salary Increase	2.30 to 8.95%, including inflation
Annual Healthcare Trend Rate	<u>HealthSelect</u> 5.60% for FY25, 5.30% for FY26, 5.00% for FY27, 4.75% for FY28, 4.60% for FY29, decreasing 10 basis points per year to an ultimate rate of 4.30% for FY31 and later years <u>HealthSelect Medicare Advantage</u> 16.40% for FY25, 8.40% for FY26, 5.00% for FY27, 4.75% for FY28, 4.60% for FY29, decreasing 10 basis points per year to an ultimate rate of 4.30% for FY29 and alter years <u>Pharmacy</u> 10.00% for FY25 and FY26, decreasing 100 basis points per year to 5.00% for FY31 and 4.30% for FY32 and later years
Inflation Assumption Rate	2.30%
Ad hoc Postemployment Benefit Changes	None
Mortality Rate	<u>State Agency Members</u> <ul style="list-style-type: none"> • <i>Service Retirees, Survivors and other Inactive Members (Regular, Elected, CPO/CO and JRS I and II Employee Classes):</i> 2020 State Retirees of Texas Mortality table with a 1 year set forward for male CPO/CO members and Ultimate MP Projection Scale projected from the year 2020. • <i>Disability Retirees (Regular, Elected, CPO/CO and JRS I and II Employee Classes):</i> 2020 State Retirees of Texas Mortality table with a 3 year set forward for males and females with minimum rates at all ages of 3.0% for males and 2.5% for females, respectively, and Ultimate MP Projection Scale projected from the year 2020. • <i>Active Members:</i> Pub-2010 General Employees Active Member Mortality table for non-CPO/CO members and Pub-2010 Public Safety Active Member Mortality table for CPO/CO members with Ultimate MP Projection scale from the year 2010. <u>Higher Education Members</u> <ul style="list-style-type: none"> • <i>Service Retirees, Survivors and other Inactive Members:</i> Tables based on TRS experience with Ultimate MP Projection Scale from the year 2021. • <i>Disability Retirees:</i> Tables based on TRS experience with Ultimate MP Projection Scale from the year 2018 using a 3-year set forward and minimum mortality rates of four per 100 male members and two per 100 female members. • <i>Active Members:</i> Sex Distinct RP-2014 Employee Mortality multiplied by 90% with Ultimate MP Projection Scale from the year 2014.

Many of the actuarial assumptions used in this valuation have been updated based on the results of actuarial experience studies recently adopted by Teacher Retirement System (TRS) trustees for higher education members.

Investment Policy. The State Retiree Health Plan is a pay-as-you-go plan and does not accumulate funds in advance of retirement. The System's Board of Trustees adopted the amendment to the investment policy in August 2017 to require that all funds in the plan be invested in short-term fixed income securities and specify that the expected rate of return on these investments is 2.4%.

F. Discount Rate

Because the GBP does not accumulate funds in advance of retirement, the discount rate that was used to measure the total OPEB liability is the municipal bonds rate. The discount rate used to determine the total OPEB liability as of the beginning of the measurement year was 2.14%. The discount rate used to measure the total OPEB liability as of the end of the measurement year was 3.81%, which amounted to an increase of 0.22%. The source of the municipal bond rate was the Bond Buyer Index of general obligation bonds with 20 years to maturity and mixed credit quality. The bonds average credit quality is roughly equivalent to Moody's Investors Service's Aa2 rating and Standard & Poor's Corp's AA rating. Projected cash flows into the plan are equal to projected benefit payments out of the plan. Because the plan operates on a pay-as-you-go (PAYGO) basis and is not intended to accumulate assets, there is no long-term expected rate of return on plan assets and therefore the years of projected benefit payments to which the long-term expected rate of return is applicable is zero years.

G. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.81%) in measuring the Net OPEB Liability.

	1% Decrease in Discount Rate (2.81%)	Current Single Discount Rate (3.81%)	1% Increase in Discount Rate (4.81%)
College's proportionate share of the net OPEB liability	\$ 17 695 852	\$ 15 250 361	\$ 13 283 329

H. Healthcare Trend Rate Sensitivity Analysis.

The initial healthcare trend rate is (5.60%) and the ultimate rate is (4.3%). The following schedule shows the impact on the College's proportionate share of the collective net OPEB Liability if the healthcare cost trend rate used was 1 percent less than and 1 percent greater than the healthcare cost trend rate that was used (5.6%) in measuring the net OPEB liability.

	1% Decrease in Healthcare Trend Rate (4.60%)	Current Single Healthcare Trend Rate (5.60%)	1% Increase in Healthcare Trend Rate (6.60%)
College's proportionate share of the net OPEB liability	\$ 13 117 430	\$ 15 250 361	\$ 17 959 193

I. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2024, the College reported a liability of \$15,250,361 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the College. The amount recognized by the College as its proportionate share of the Net OPEB Liability, the related State support, and the total portion of the Net OPEB Liability that was associated with the College were as follows:

College's proportionate share of the collective net OPEB liability	\$ 15 250 361
State's proportionate share that is associated with the College	7 487 061
TOTAL	\$ 22 737 422

The Net OPEB Liability was measured as of August 31, 2023 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The College's proportion of the Net OPEB Liability was based on the College's contributions to the OPEB plan relative to the contributions of all other employers to the plan for the period September 1, 2022 thru August 31, 2023.

At August 31, 2023 the College's proportion of the collective Net OPEB Liability was .05707998%, which was .00295807% lower than the same proportion measured as of August 31, 2022.

For the year ended August 31, 2024, the College recognized OPEB expense of \$222,193 and revenue of \$222,193 for support provided by the State.

For the year ended August 31, 2023, the College recognized OPEB expense of \$294,093 and revenue of \$294,093 for support provided by the State.

J. Changes in Actuarial Assumptions

Changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period were as follow:

- Demographic assumptions (including rates of retirement, disability, termination, mortality, and assumed salary increases) for higher education members have been updated to reflect assumptions recently adopted by the trustees from the Teachers Retirement System of Texas.
- Assumed expenses, assumed per capita health benefit costs, and assumed health benefit cost, retiree contribution, and expense trends have been updated to reflect recent experience and its effects on our short-term expectations.
- The percentage of current retirees and their spouses not yet eligible to participate in the HealthSelect Medicare Advantage Plan and future retirees and their spouses who will elect to participate in the plan at the earliest date at which coverage can commence
- The percentage of future retirees assumed to be married and electing coverage for their spouse have been updated to reflect recent plan experience and expected trends.
- The discount rate assumption was decreased from 3.96% to 3.81% to utilize the updated yield or index rate for 20-year, tax-exempt general obligation municipal bonds rated AA/Aa (or equivalent) or higher in effect on the measurement date.

K. Changes to Term Benefits

The only benefit change for Fiscal Year 2022 for HealthSelect retirees and dependents for whom Medicare is not primary, is an increase in the out-of-pocket maximum for both HealthSelect and Consumer Directed HealthSelect (CDHP) from \$6,650 to \$6,750 for individuals and from \$13,300 to \$13,500 for families in order to remain consistent with Internal Revenue Service maximums. This minor benefit change is provided for in the Fiscal Year 2020 Assumed Per Capita Health Benefit Costs. There are no benefit changes for HealthSelect retirees and dependents for whom Medicare is Primary.

High-Cost Plan Excise Tax. Consistent with the prior valuation, the effects of the High-Cost Plan Excise Tax imposed by the ACA under Internal Revenue Code Section 49801 (sometimes referred to as the "Cadillac Tax"), have been included in this valuation. The Excise Tax becomes effective in 2023, but the plan is not expected to be subject to the tax until 2072 based on current plan provisions, assumptions and participant demographics. The Net OPEB Liability is increased by the \$251 million present value of the estimated Excise Taxes in future years and associated increase to the ADC is \$8 million.

Medicare Part D. The Medicare Prescription Drug Improvement and Modernization Act of 2003 introduced a prescription drug benefit under Medicare (Medicare Part D) as well as a federal subsidy to sponsors of retiree healthcare benefit plans that provide a prescription drug benefit that is at least actuarially equivalent to the basic coverage provided under Medicare Part D (the Retiree Drug Subsidy).

The valuation of future OPEB may not reflect the anticipated receipt of future federal government subsidy payments under the Medicare Part D Prescription Drug Program as required under GASB Technical Bulletin No. 2006-1. The bulletin requires that Retiree Drug Subsidy payments to an employer are to be reported by the employer as revenue, rather than being netted against the employer's OPEB cost for prescription drug coverage.

ERS implemented an Employer Group Waiver Plan plus Commercial Wrap (EGWP plus Wrap) on January 1, 2013 in order to provide the plan with the benefit of increased subsidies and discounts available under such an arrangement. The Retiree Drug Subsidy has been significantly reduced as a result of the implementation of the EGWP plus Wrap. The Retiree Drug Subsidies are excluded from this valuation in accordance with GASB Technical Bulletin No. 2006-1.

The projected cost of the EGWP plus Wrap reflects the subsidies which are expected to be provided by the Federal government under Medicare Part D and the discounts expected to be provided by drug manufacturers as required under the ACA.

Variability in Future Actuarial Measurement. Future actuarial measurements may differ significantly from the current measurements due to such factors as the following:

- Plan experience differing from that anticipated by the economic or demographic assumptions.
- Changes in economic or demographic assumptions.
- Increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period); and
- Changes in plan provisions, applicable law, or applicable accounting standards.

At August 31, 2023, the College reported its proportionate share of the GBP's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources

NOTE 17 - CONTRACT AND GRANT AWARDS

Contract and grant awards are accounted for in accordance with the requirements of the American Institute of Certified Public Accountants (AICPA industry audit guide, *Audits of Colleges and Universities*). Revenues are recognized on Exhibit 2, Schedule A, and Schedule C. For federal contract and grant awards, funds expended but not collected are reported as Federal Receivables on Exhibit 1. Non-federal contract and grant awards for which funds are expended but not collected are reported as Accounts Receivable on Exhibit 1. Contract and grant awards that are not yet funded, and for which the institution has not yet performed services, are not included in the financial statements.

Contracts and grant award funds already committed or funds awarded during fiscal years 2024 and 2023 for the College and Foundation are as follows:

NOTE 18 - SELF INSURED PLANS

The College self-insures for coverage in the areas of workers' compensation and unemployment compensation. These plans are on a pay-as-you-go basis, in which no assets are set aside. Accrued liabilities are generally based on actuarial valuation and represent the present value of unpaid expected claims. Estimated future payments for incurred claims are charged to current operations. Management has determined the liability to be less than \$10,000.

NOTE 19 - AD VALOREM TAX

The College's *ad valorem* property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the College taxing district.

Current tax levy collections for the years ended August 31, 2024 and 2023 were 95.53% and 96.34%, respectively. Allowances for uncollectible taxes are based upon historical experience in collecting property taxes. The use of tax proceeds is restricted to maintenance and operations and/or general obligation debt service.

NOTE 20 - TAX ABATEMENT

Northeast Texas Community College has upheld county property tax abatement agreements with local businesses under the State of Texas Property Tax Abatement Act, Tax Code Chapter 312. Under the Act, localities may grant property tax abatements of all or a part of an increase in the value of business' real property and/or tangible personal property for attracting or retaining businesses within their jurisdictions. The abatements may be granted to any business located within or promising to relocate to the service area of Northeast Texas Community College.

For the fiscal years ended August 31, 2024 and 2023, Northeast Texas Community College did not have any abatement agreements.

NOTE 21 - INCOME TAXES

The College is exempt from income taxes under Internal Revenue Code Section 115 Income of States, Municipalities, Etc. although unrelated business income may be subject to income taxes under Internal Revenue Code Section 511(a)(2)(B), Imposition of Tax on Unrelated Business Income of Charitable, Etc. Organizations. The College had no unrelated business income for the years ended August 31, 2024 and 2023.

AND NORTHEAST TEXAS COMMUNITY COLLEGE FOUNDATION
NOTES TO FINANCIAL STATEMENTS - CONTINUED
August 31, 2024 and 2023

NOTE 22 - NORTHEAST TEXAS COMMUNITY COLLEGE FOUNDATION, INC. - DISCRETE COMPONENT UNIT

Northeast Texas Community College Foundation, Inc. (the Foundation) was established in 1984 as a separate non-profit organization to raise funds to provide student scholarships and assistance in the development and growth of the College. Under Government Standards Board Statement No. 39, Determining Whether Certain Organizations are Component Units, an organization should report as a discretely presented component unit those organizations that raise and hold economic resources for the direct benefit of a government unit.

Accordingly, the Foundation financial statements are included in the College's annual report as a discrete component unit. Complete financial statements of Northeast Texas Community College Foundation, Inc. can be obtained from the administrative office of the Foundation.

NOTE 23 - RISK MANAGEMENT - CLAIMS AND JUDGMENTS

In the normal course of operations, the College is exposed to risks of loss from a number of sources including fire and casualty, errors and omissions by board members and employees, and injuries to employees during the course of performing their duties.

The College attempts to cover these losses by purchase of insurance. Significant risks are covered by commercial insurance for property and liability programs. There has been no significant reduction in coverage and settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

In management's estimation there are no current loss claims that exceed the maximum coverage or any material unfunded claim benefit obligation for self-funded programs.

NOTE 24 - COMMITMENTS AND CONTINGENCIES

Litigation - The College may be subjected to loss contingencies arising principally in the normal course of operations. In the opinion of the administration, the outcome of these lawsuits will not have a material adverse effect on the accompanying financial statements and accordingly, no provision for losses has been recorded.

Grant Programs - The College participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies; therefore, to the extent that the college has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at August 31, 2023, may be impaired. In the opinion of the College, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

NOTE 25 - TC³ CONSORTIUM

The purpose of this strategic partnership with 7 community colleges is to utilize a common Student Information System to facilitate a growing number of "shared services" in a manner that reduces administrative overhead and supports growth without an increase in administrative costs. The members include Northeast Texas Community College, Texarkana College, Kilgore College, Paris Junior College, and Angelina College. TC³ members have formally adopted an interlocal agreement, appointed officers, and secured private start-up funding as well as a special-item appropriation from the state of Texas for \$2.375 million.

NOTE 26 - PENDING LAWSUITS AND CLAIMS

As of August 31, 2024, there are no lawsuits pending against the College.

NOTE 27 - RELATED PARTY TRANSACTIONS

Under 34 C.F.R. 668.23(d)(1), any transaction between related parties must be disclosed. The regulation went into effect in July 2024. The following related party transactions occurred during the fiscal year:

Payments: Northeast Texas Community College Foundation (the "Foundation"), an independent corporation organized for the purpose of fund raising to benefit the District received \$95,544 Title V Endowment matching funds for the five year Title V Increasing Hispanic and Underserved Enrollment and Retention Grant initially awarded 10-1-23 from college grant funds received. Endowed portion represents up to 20% of the cumulative award amount.

Receipts: Northeast Texas Community College Foundation (the "Foundation"), an independent corporation organized for the purpose of fund raising to benefit the District, made contributions of \$3,687,747 and \$2,808,201 in fiscal years 2024 and 2023, respectively to the college. All Trustees of the District are also on the Board of Directors of the Foundation.

A. Notes to Schedules for the TRS Pension Plan

Changes of Benefit Terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes of Assumptions

Assumptions, methods, and plan changes which are specific to the Pension Trust Fund were updated from the prior year's report. The Net Pension Liability increased significantly since the prior measurement date due to a change in the following actuarial assumptions:

- The total pension liability as of August 31, 2024 was developed using a roll-forward method from August 31, 2012.
- Demographic assumptions including post-retirement mortality, termination rates, and rates of retirement were updated on the experience study performed for TRS for the period ending August 31, 2022.
- Economic assumptions including rates of salary increase for individual participants were updated based on the same experience study.
- The discount rate remained unchanged.
- The long term assumed rate of return changed from 8.0 to 7.25 percent.
- The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the net pension liability.

B. Notes to Schedule for the ERS OPEB Plan

Other Post-Employment Benefit Plan

Changes of Benefit Terms

Under Q/A #4.107 of GASB's Implementation Guide No. 2017-2, Financial Reporting for Post-Employment Benefit Plans Other Than Pension Plans, any plan changes that have been adopted and communicated to plan members by the time the valuation is prepared must be included in the valuation. Accordingly, this valuation reflects the benefit changes that will become effective January 1, 2020, since these changes were communicated to plan members in advance of the preparation of this report. The only benefit change for Fiscal Year 2020 for Health Select retirees and dependents for whom Medicare is not primary is an increase in the out-of-pocket maximum for both HealthSelect and Consumer Directed HealthSelect (CDHP) from \$6,650 to \$6,750 for individuals and from \$13,300 to \$13,500 for families in order to remain consistent with Internal Revenue Service maximums. This minor benefit change is provided for in the Fiscal Year 2020 Assumed Per Capita Health Benefit Costs. There are no benefit changes for HealthSelect retirees and dependents for whom Medicare is Primary.

Changes in Actuarial Assumptions

Since the last valuation was prepared for this plan, demographic assumptions (including rates of retirement, disability, termination, and mortality, assumed salary increases and assumed age difference for future retirees and their spouses for selected classes of State Agency employees), assumed aggregate payroll increases and the assumed rate of general inflation have been updated to reflect assumptions recently adopted by the Teacher Retirement System (TRS) Trustees. These new assumptions were adopted to reflect an experience study on the TRS retirement plan performed by the TRS retirement plan actuary.

SINGLE AUDIT SECTION

Annual Financial Report

For the Fiscal Years Ended
August 31, 2024 and 2023

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees
Northeast Texas Community College and
Northeast Texas Community College Foundation
Mt. Pleasant, Texas

Members of the Board of Trustees:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of Northeast Texas Community College and Northeast Texas Community College Foundation, Inc. as of and for the year ended August 31, 2024 and 2023, and the related notes to the financial statements, which collectively comprise Northeast Texas Community College and Northeast Texas Community College Foundation, Inc.'s basic financial statements, and have issued our report thereon dated December 19, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Governmental Auditing Standards.

Public Funds Investment Act Compliance

We performed tests designed to verify Northeast Texas Community College and Northeast Texas Community College Foundation, Inc.'s compliance with the Public Funds Investment Act. The results of our tests disclosed no instances of noncompliance with the Public Funds Investment Act.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Conclusion

This report is intended for the information and use of management, the audit committee, Board of Trustees, others within the entity, the Texas Higher Education Coordinating Board, federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND THE STATE OF TEXAS SINGLE AUDIT CIRCULAR

Board of Trustees
Northeast Texas Community College and
Northeast Texas Community College Foundation
Mt. Pleasant, Texas

Members of the Board of Trustees:

Reports on Compliance for Each Major Federal and State Program

Opinions on Each Major Federal and State Program

We have audited Northeast Texas Community College and Northeast Texas Community College Foundation, Inc.'s compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the State of Texas Single Audit Circular, Uniform Grant Management Standards which could have a direct and material effect on each of Northeast Texas Community College and Northeast Texas Community College Foundation, Inc.'s major federal and state programs for the year ended August 31, 2024. Northeast Texas Community College and Northeast Texas Community College Foundation, Inc.'s major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Northeast Texas Community College and Northeast Texas Community College Foundation, Inc., complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended August 31, 2024.

Basis for Opinions on Each Major Federal and State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the State of Texas Single Audit Circular, issued by the Comptroller General of the United States. Our responsibilities under those standards, the Uniform Guidance and State of Texas Circular are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Northeast Texas Community College and Northeast Texas Community College Foundation and to meet our other ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of the college and the foundation's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Northeast Texas Community College and Northeast Texas Community College Foundation, Inc.'s federal and state programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Northeast Texas Community College and Northeast Texas Community College Foundation, Inc.'s compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance, and State Single Audit Circular will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Northeast Texas Community College and Northeast Texas Community College Foundation, Inc.'s compliance with the requirements of each major federal and state program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, Uniform Guidance, and the Texas State Single Audit Circular, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Northeast Texas Community College and Northeast Texas Community College Foundation, Inc.'s compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Northeast Texas Community College and Northeast Texas Community College Foundation, Inc.'s internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and Texas State Single Audit Circular, but not for the purpose of expressing an opinion on the effectiveness of Northeast Texas Community College and Northeast Texas Community College Foundation, Inc.'s internal control over compliance. Accordingly, no such opinion is expressed.

Reports on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the Texas State Single Audit Circular. Accordingly, this report is not suitable for any other purpose.

Conclusion

This report is intended for the information and use of management, the audit committee, Board of Trustees, others within the entity, the Texas Higher Education Coordinating Board, federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

The expenditures included in the schedule are reported for the College's fiscal year. Expenditure reports to funding agencies are prepared on the award period basis. The expenditures reported represent funds which have been expended by the College for the purposes of the award. The expenditures reported may not have been reimbursed by the funding agencies as of the end of the fiscal year. Separate accounts are maintained for the different awards to aid in the observance of limitations and restrictions imposed by the funding agencies. Some amounts reported in the schedule may differ from amounts used in the preparation of the basis financial statements. The College has followed all applicable guidelines issued by various entities in the preparation of the schedule. Since the College has agency approved Indirect Recovery Rate it has elected not to use the 10 percent de minimis cost rate as permitted in the UG, section 200.414.
