

## They Really Are Willing to **WORK!**

Recently, 81 Work4College students began their journey to fund their college education. For more than a decade, the program has grown significantly, and it's all thanks to your support. We greatly appreciate each and every one of you who has helped shape the program into what it is today.

Where do they all work? 64 of the students work on our college campus doing anything from general farm work to campus maintenance, yet some enjoy the perks of the air conditioner in our Student Services and IT Department. 17 of the others work on campuses of local school districts we have partnered with (Chapel Hill, Como-Pickton, Daingerfield, and Harts Bluff).

### The students that you support will **WORK, SERVE, LEARN and EARN** their way through the summer!

This year, we're asking for support through our Wish List. As our Work4College program continues to grow, we're in need of additional tools and equipment to keep up with demand and ensure our students have what they need to succeed. By purchasing an item from the list, you'll be directly helping our students and making an impact on their experience. Thank you for your continued support!

#### Items On Our Wishlist
